SABAKT
FOR METAL FABRICATION

INTRODUCTION

SABAKT Metal Fabrication Est. specializes in advanced fabrication and erection services, focusing on the manufacturing of heavy steel structures, including custom staircases and complex frameworks. We also offer tailored solutions for wear and tear, utilizing specialized plating and welding techniques to enhance the strength, longevity, and performance of industrial structures.

VISION

Our top priority is customer satisfaction. We aim for sustainable, profitable growth by consistently exceeding customer needs and expectations through high-quality products and services. We proudly support our clients with technical expertise and innovative solutions to overcome challenges and ensure timely project completion.

MISSION

Our mission is to be the most dependable supplier in the KSA market, meeting customer needs with timely deliveries and high standards of service.

OUR STRENGTH & CAPABILITIES

We strive for complete customer satisfaction by offering competitively priced systems with technical support. Our well-equipped workshop and experienced team of engineers and technicians allow us to execute both on-site and customized fabrication and erection jobs.

SABAKT is active in various industrial projects, including hospitals, industrial power and applications, commercial construction, agriculture and irrigation, concrete mixing and blocks, stone crushing, steel, cement, construction, mining, and quarrying.

RAW MATERIAL

To meet our customers' needs, we supply high-quality materials such as Hardox, Dillidur, CDP, EDP, SS plates, and specialized welding consumables. These materials are sourced from reputable national and international suppliers, adhering to global standards.

OUR FACILITIES

- Milling Machines
- Drilling Machines
- Press Brakes
- Angle / Flat Bar Cutting Machines
- Shearing Machines
- Lathe Machines (of various capacities)
- Shaping Machines
- TIG / MIG / Arc Welding Machines
- Threading Machines
- Paint Booth
- Plasma Cutting Machines

SABAKT
FOR METAL FABRICATION

Steel Solutions from Design to Installation

WHY CHOOSE SABAKT?

COMPLETE STEEL SOLUTIONS
From engineering coordination and fabrication to supply, surface finishing and site installation.

QUALITY & PRECISION
Skilled engineers, qualified welders, dimensional inspections and project-specific quality control.

ADVANCED MANUFACTURING CAPABILITIES
Structural steel, tanks, gratings, ladders, platforms, anchor bolts, stainless steel and aluminum works.

RELIABLE PROJECT EXECUTION
Flexible production planning, coordinated deliveries and dedicated site installation teams.

AT A GLANCE

- In-House Fabrication Facility
- Experienced Technical Team
- Modern Machinery & Equipment
- Quality & Safety Focused
- Multi-Sector Project Experience

KEY PRODUCT & SERVICE RANGE

- Steel Structures & Frameworks
- Tanks (Fuel, Diesel & Water)
- Gratings & Platforms
- Access & Cage Ladders
- Fences & Gates
- Enclosures & Kiosks

SABAKT – *YOUR TRUSTED PARTNER IN STEEL FABRICATION*

Engineering Excellence | Quality Manufacturing | Reliable Delivery | Professional Installation

SABAKT
FOR METAL FABRICATION

Steel Solutions from Design to Installation

DECORATIVE STEEL FENCING & GATES

Our Capabilities

- Workshop Fabrication
- Cutting & Bending
- Welding (Qualified)
- Hot Dip Galvanizing (HDG)
- Painting / Powder Coating
- Site Installation

FOR METAL FABRICATION

Steel Solutions from Design to Installation

FABRICATED STEEL PRODUCTS

Manhole Rung Ladder (Coated Finish)

Manhole Rung Ladder (Galvanized Finish)

Steel Plates (with Drilled Holes)

Fabricated Steel Brackets (Supports)

OUR CAPABILITIES

- Manhole Rung Ladders (MS / HDG / Painted)
- Steel Plates (Cut, Drilled & Fabricated)
- Support Brackets & Assemblies
- Custom Steel Fabrication as per Drawings
- Surface Finishes: HDG, Primer & Painting
- Supply & Installation

APPLICATIONS

- Manholes & Underground Utilities
- Substations & Power Projects
- Industrial & Infrastructure Projects
- Pipe, Cable & Equipment Supports

FABRICATED STEEL PRODUCTS

Steel Bollards

Steel Gratings (with Frames)

Cable Tray / Support Brackets

Anchor Plates & Assemblies

OUR CAPABILITIES

- Steel Bollards (Safety / Protective)
- Steel Gratings & Frames
- Cable Trays & Supports
- Anchor Plates & Embedded Items
- Fabrication as per Drawings & Specifications
- Hot Dip Galvanized (HDG) / Primer & Painting
- Supply & Installation

APPLICATIONS

- Substations & Power Projects
- Industrial Facilities
- Infrastructure & Utilities
- Commercial & Civil Projects

ROLLER PIPE CASING SPACER

Product Details

- Roller Pipe Casing Spacer (Pipe Support)
- Fabrication as per Project Drawing & Specification
- High-Quality Carbon Steel
- Hot Dip Galvanized / Painted Finish (as Required)
- Accurate Bending & Welding
- Ready for Supply & Installation

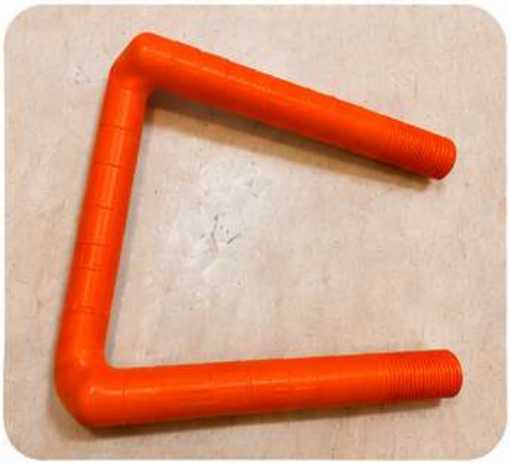
MANHOLE COVERS & FRAMES

- Ductile / Cast Iron & Steel Manhole Covers
- Square & Round Types
- Heavy Duty (e.g. D400)
- Frames with Anchors
- As per Project Drawings & Specifications

RUNG LADDER (STEP LADDER) & CAGED LADDER



- Rung Ladder Fabrication
- Caged Ladder Fabrication
- Galvanized / Painted Finish
- Safety & Access Systems
- Supply & Installation

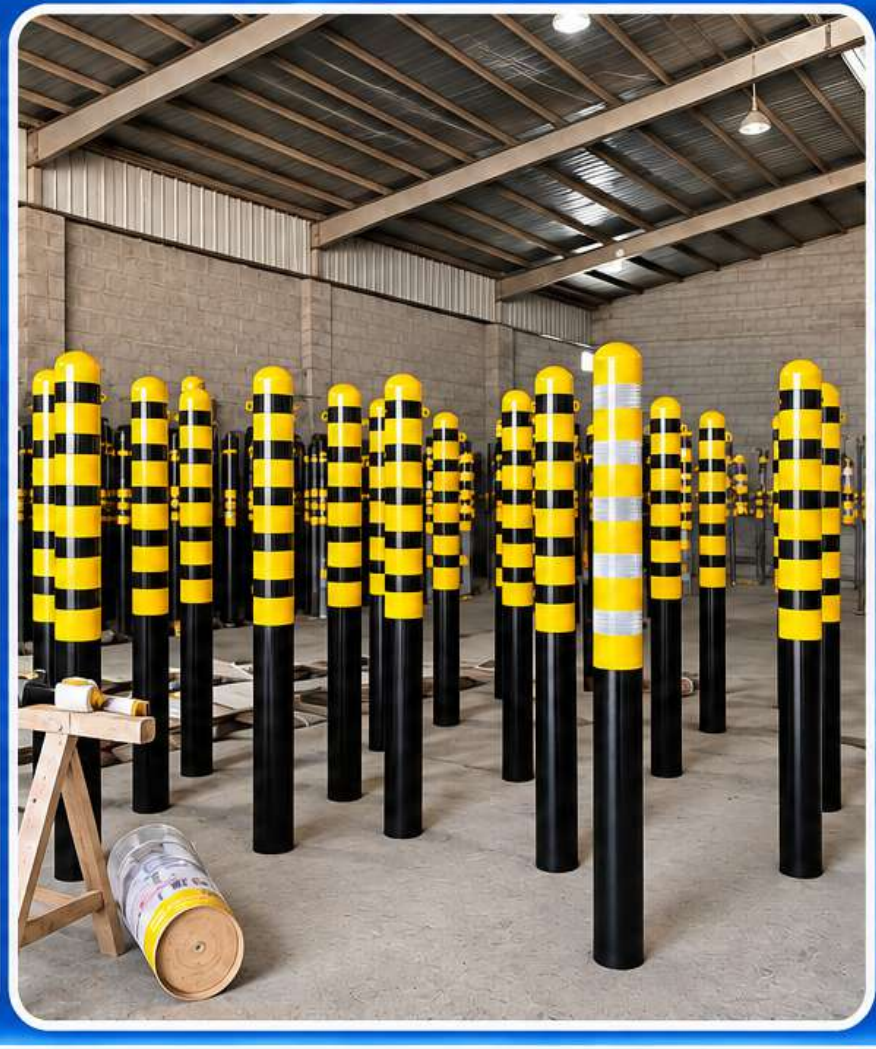
STEEL SAFETY BOLLARDS



Product Details

- Steel Safety Bollards (Protective Bollards)
- Fabricated from Carbon Steel Pipe
- High-Visibility Safety Painting (Black & Yellow)
- Reflective Bands (Optional)
- With Lifting / Towing Eyes (as Required)
- Base Plate / Embedded / Direct Burial Options
- Fabrication as per Project Drawing & Specification
- Suitable for Industrial, Commercial & Infrastructure Use
